COMP 204
Review and final exam preparation

Mathieu Blanchette

Final exam info

- Date: Dec. 12, 9:00-12:00, in the Gym (Main room)
- Weight: 50% of your final grade (or 70% if better than midterm grade)
- Closed book but 8.5 x 11 double-sided crib sheet allowed.
- Questions:
    - 9 multiple choice questions (total 28%). Answer on Scantron (**not on exam**). Follow instructions for each questions: For some questions you need to indicate the only correct answer. For other questions you need to indicate all correct answers.
    - 6 short answer questions (total: 30%). Answer directly on exam.
    - 6 long answer questions (total: 52%). Answer directly on exam.

Final exam content

Content:

- ► Covers all material seen in class and in assignments, with an emphasis on core concepts and ability to write your own programs
- ► Will mostly test core programming skills, not detailed knowledge of all the packages introduced in class (scikit-learn, Biopython, skimage).
- ► What to learn by heart? Nothing. Use cribsheet to note the syntax of key functions you may have trouble remembering.

Preparing for the final exam

How best to prepare for the exam:

- ▶ Practice, practice, practice.
- ▶ Review all lecture notes, assignment solutions, midterm solutions
- ▶ Write last year's COMP 364 midterm and final exams (on MyCourses-Content)
- ▶ Practice on the problems we've posted on MyCourses-Content
- ▶ Attend CSUS review session
- ▶ Come to my office hours:
    - ▶ Monday: 10:30-12:30
    - ▶ Wednesday: 10:30-12:30
    - ▶ Friday: 10:30-12:30

Schedule

Today: Solving questions 1-20 of COMP 364 Fall 2017 Final exam

Monday: Continuing on COMP 364 Fall 2017 Final exam

Tuesday: COMP 364 Fall 2017 Midterm exam
