(206) 661-7963 

RESEARCH INTERESTS	Machine learning; Artificial intelligence; Big data; Bayesian nonparametrics; Nonlinear time-series analysis; Reinforcement learning; Reasoning under uncertainty; Ubiquitous computing; Lifelong learning; Applications of machine learning and artificial intelligence.	
CURRENT POSITION	Software Engineer, Facebook, Seattle, WA.	
EDUCATION	PhD Candidate, McGill University	August, 2012
	M.Sc. Computer Science, Dean's Honour List, McGill University	August, 2008
	B.Sc. Computer Science with Co-op Designation, Simon Fraser University	April 2006
HONORS, AWARDS & FELLOWSHIPS	K. Downes Graduate Award and Graduate Excellence Fellowship	2011 – 2012
	Max E. Binz Fellowship	2010 – 2011
	Molson and Hilton Hart Fellowship in Science	2010 – 2011
	NSERC Alexander Graham Bell PhD Canadian Graduate Scholarship	2009 – 2012
	Dean's Honour List for Master's Thesis, McGill University	2008
	Golden Key International Honour Society	1998

EXPERIENCE

McGill University, School of Computer Science	Montreal, Canada
<i>Research Assistant</i> (Supervisor: Doina Precup)	Fall 2006 – 2012
<i>Course Lecturer:</i>	
COMP202: Introduction to Computer Science (37 students, 39 lecture-hours)	Summer 2008
<i>Teaching Assistant:</i>	
COMP102: Computers and Computing (30 students)	Fall 2010
COMP202: Introduction to Computer Science (350 students)	Fall 2006, Winter 2009
COMP424: Artificial Intelligence I (80 students)	Winter 2010
COMP652: Machine Learning (Graduate Course, 60 students)	Fall 2008, Fall 2009
<i>System Administrator</i> (managed 20 workstations and 4 servers)	2009 – 2012
 Nitobi Software (now Adobe)	 Vancouver, Canada
<i>Senior Software Engineer</i>	Dec., 1998 – Dec., 2005
Projects and responsibilities:	
Systems and network administrator, including setup and maintenance of http, email, and database servers.	
Design and development of an online content management and web publishing system.	
Web-based software component development for clients such as TimeWarner, Bank of America, and Siemens.	

Independent Consulting and Software Development

Implemented Android mobile activity recognition software library for GoodHop	2011
Designed and implemented an online dating site in Ruby on Rails for Kisscafe Media INC	2006
Customized PHP billing and management software for Savoury Chef Foods	2009 – 2010

| CHALLENGES & COMPETITIONS | 16. Open Challenge track of the Nokia Mobile Data Challenge. January–April, 2012. |
| PATENTS | 17. J. Frank, S. Mannor & D. Precup. Method of identification and devices thereof. <i>Patent Pending</i> . |

OPEN-SOURCE SOFTWARE

HumanSense Android Data Collection Platform: App for the Android platform that allows flexible logging and analysis of sensor data. Also includes demo of activity recognition and location discovery from wifi signals.

Time-Delay Embedding Feature Extraction Tools: Command-line tools for building classifiers based on time-delay embeddings of time-series data.

REVIEWING AND OTHER WORK

Served on the ICML 2010 (5 papers) and 2012 (7 papers), NIPS 2011 (6 papers) and 2012 (6 papers), and ECML/PKDD 2009 (3 papers) Program Committees.

Co-organizer of the Reinforcement Learning Competition and Workshop at ICML 2008 and 2009. Designed, developed, and maintained the competition websites and active leaderboards (60 hours of work). Assisted in coordination of the workshop.

Departmental delegate for the union of graduate student teaching assistants at McGill 2008 – 2010

MISCELLANEOUS

Graduate level courses taken in the fields of Compilers, Cryptography, Machine Learning, Computer Vision, Mobile Robotics, Probabilistic Analysis of Algorithms, and Domain Theory (A grades obtained).

Well versed in C, C++, C#, Java, Perl, Python, Ruby, R, PHP, Javascript, SQL, XML, XSL, HTML, CSS, and Matlab.

Working knowledge of Assembly, Lisp and Haskell.

Extensive experience with mobile software development for Android platform, both with Java SDK and Native C++ NDK.
